

Topics include, but are not limited to:

Renewable Energy

Photovoltaic Systems and Solar Energy Engineering
Wind Energy Systems
Renewable Energy Utilizations
New Energy Applications
Energy-Saving Technology
New Energy Materials and Devices

Power Engineering

Electricity Networks of the Future Energy Storage Technologies and Devices
Power and Energy Generation
Energy Transmission and Distribution
Power Systems and Automation
Fault monitoring and Predictive Maintenance
Power electronics

2022 5th International Conference on Renewable Energy and Power Engineering will be held once again in Beijing, China during **September 28-30, 2022**. The aim of REPE is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Renewable Energy and Power Engineering.

Publication & Index

Accepted and presented papers will be published into Conference Proceedings, like last few years.

REPE 2018-2020 conference proceedings has been included in **IEEE Xplore** and indexed by **Ei Compendex** and **Scopus**.
